III. Reading

My name is Eve. I am twelve. Both my birthday and name day are on 24th December. On that day my family also celebrates Christmas Eve. Unfortunately, I usually get only one present for these three occasions. I am a good student. My favourite subjects at school are languages. I love English and French. I'd like to go to Paris one day. However, I am not into maths. I hate fractions. History is also not for me. I prefer learning about countries and landscapes to remembering dates and facts. I don't mind sports, but I don't want to be a famous sportswoman one day.

My best friends are Mark and Sarah. Sarah is my classmate so we see each other every day, but Mark is one year older than me. I meet him from time to time. He is good at maths. Unlike me, he wants to be a mathematician and university student one day. When I finish school, I want to travel around the world like my brother Peter who is a globetrotter. I rarely see him and his girlfriend. They spend most of their time abroad. Peter is crazy about visiting other countries and meeting people.
